Greetings,

As your State Representative, it is an honor and privilege to serve the citizens of Branch and Hillsdale Counties. My colleagues and I are working hard to help create an environment that makes Michigan a great place to live, work, and raise a family. I am confident we are on a positive path in our recovery.

One of the most basic responsibilities state legislators have is passing a balanced annual budget. I’m pleased that again this year, the budget was passed on time, so that local schools and governments could better plan for their own upcoming budgets. Through careful review and hard but fair choices, we were able to pass legislation that:

- Slows the growth of state government
- Eliminates state subsidies for Hollywood film producers
- Allocates an additional $400 million to fix our roads and bridges -- without raising taxes
- Increases per-pupil education funding
- Makes it easier for veterans to receive college credit for military training
- Helps state administrators aid financially struggling school districts

Good government is always a work in process. We’ve accomplished a lot so far, but have plenty of issues on deck. In addition to road funding, I’m eager to work on two in particular -- state energy policy and automobile insurance. They impact our state’s economic competitiveness and the cost of living for Michigan families.

Your viewpoint provides meaningful insight and helps keep government accountable. Whether you have questions or comments regarding legislation or need assistance with state government, I’d like to hear from you.

Sincerely,

STATE REPRESENTATIVE
ERIC LEUTHEUSER
