

# I voted to fix our roads without raising taxes and fees.

Like you, I am frustrated by the condition of our roads. That is why I helped approve an emergency plan to allocate an additional \$175 million into road repairs.

We have extra money in our state budget and should use it to fix potholes and make other road repairs NOW, not next year. The \$175 million is left over from a previous budget cycle, and is in addition to record funding already allocated for roads, meaning no cuts or additional taxes or fees are necessary.

Extra funding to fix local roads NOW  
**\$175 million in total!**

Senior Update Summer 2018

YOUR STATE REPRESENTATIVE  
**LARRY INMAN**

Dear Neighbor,

As your state representative, I am dedicated to improving the lives of all Michigan citizens.

This newsletter provides information about what is being done to help older residents, including efforts to improve services and protect your wallet.

Listening to your concerns and delivering results is important to me. If you have any questions or need help, please do not hesitate to contact me.

Sincerely,

**LARRY INMAN**  
State Representative

## Rep. Inman: We must combat the opioid crisis together

Opioid abuse is devastating so many lives in Michigan and tearing families apart.

I helped approve a solution that increases access to treatment while strengthening requirements for pain management facilities. In addition, I voted to protect minors from opioid addiction by requiring medical professionals to consult with patients, especially students and parents, when prescribing opioid-based medications.

I am committed to ensuring we do all we can to protect our families from the life-threatening ramifications of addiction.

Focused on what's **IMPORTANT TO YOU**

### Rep. Inman helps enact new law to ban taxes on groceries

Monthly grocery bills can be expensive and represent a large portion of a monthly household budget. That is why I supported a new law to ban local communities from imposing taxes on food and beverages.

Taxes on groceries would have a tremendously negative impact on families who are living paycheck to paycheck and seniors living on fixed incomes.

### Protecting you against fraud

I helped find a solution to better protect people from consumer fraud by providing free credit freezes.

When a security freeze is placed on a credit report through a consumer credit reporting agency, those looking to engage in fraud are unable to open a credit card, mortgage or other forms of credit in the name of the individual they are trying to impersonate.

This legislation better protects everyone from this devastating crime. I believe credit freezes should be a free service, especially for seniors who are living on fixed incomes.
